Topics

1

In the context of Local Authorities looking to reduce their funding in certain sectors and the knowledge that many are, or will be, effectively bankrupt in the coming years, how does the table feel the financial pressure that Local Authorities are under is impacting their services?

2

What does the table believe the new elected Government should do to address the financial health of the UK care sector?

3

Regarding the future of funded social care, are there any key areas for action and attention to ensure sustainability of essential services?
